

Guys-n-Grief

A Mens Grief and Social Support Group

Men - are you grieving the death of someone in your life?

Grief is an experience in life like no other. People live out the process of grief as uniquely as their own being. Grief is a time of need where support can offer comfort that goes beyond words. It claims no gender because *guys do grieve*.

Through sharing concern and support for one another, we often find the courage, patience and compassion to grieve in our own way and at our own pace. Grief can be a point of connection and we invite men of all ages to become a part of Guys-n-Grief, a Grief and Social Support Group of Hospice at Home and Lory's Place. Men, come share conversation and encouragement as you adjust to life's "new normal."
